Coloured pencils over a sheet of black paper effect by Dinasset.

This effect is very easy to obtain.
I have a small filter, but you can do the simple steps by yourselves.
Here the mini-mini tutorial:
Choose an image with some texture in it (a tree with some grass is OK, for instance), like this one:

Duplicate the layer, set the top layer to Color. On the bottom layer apply the filter Neon with a small radius (for instamce 1.2) and the maximum amount of intensity (1.0) and voila:
